Goldhill  
Farnham Surrey.

Dear Sir

Very many thanks for your kindness in sending the two casts of tetradrachms of Smyrna. The one in the collection of the American Numismatic Society is specially interesting, as it gives a new magistrate's name, as well as a new obverse die: Prof. Jones's is from the same dies as no. 4 in the British Museum Catalogue.

I am sorry to say that I have not succeeded in having what has become of Frost's coins yet. The men through whom I might have got information are all out of reach now: but I will keep a note to use any opportunity that may occur.

Yours sincerely  
H. Milne
